Address: 157 Knole Lane
Brenty
Bristol
BS10 6JP

Description of your Group

We are a group of local residents who value our parks and open spaces and are passionate that they remain an asset for all as a park/open space We understand that the parks/open spaces mean different things to different people throughout the age ranges, so we try to maintain the balance and diversity for all. We believe a park/open space should be a place of Fun and Games, Inspiration, Exercise and Solace and more importantly its free to use. This is extremely important our community as we live in the poorer part of the city and have had many issues in the past.

We are also part of The **Neighbourhood Planning Network (NPN)** it is a network of voluntary groups within the Bristol area, working together to help themselves and each other get better involvement in how their neighbourhoods are developed, through the planning system.

We are the voice of the people within BS10, through community involvement and are the voice of the parks and open spaces.
