Birdcage Walk, lined with pleached lime trees, is a distinctive and famous pathway through the old St. Andrew's churchyard, Clifton, Bristol.

Friends of Birdcage Walk is a community group set up to care for, maintain and improve the site, and to provide information for the public about its history and environment.

We hold regular working parties (usually 3rd Sunday of the month, 11am) to tidy up the churchyard and walkway, trying to balance allowing access to the graves with maintaining habitat for wildlife - feel free to come along and join in.
