

Clifton and Hotwells Improvement Society

www.cliftonhotwells.org.uk/

We seek to maintain, improve and develop the natural, architectural and other amenities of the neighbourhood.

The area is fortunate in having many open spaces and communal gardens and to allow others to enjoy these six years ago we started up the very successful Green Squares and Secret Gardens weekend - it is now run by an independent group. This is when people can go round gardens that choose to be open and are often otherwise unseen. It is very popular with over 600 people visiting each (non-covid) year.

We pay careful attention to suggestions for changes proposed for the Downs and are usually supportive - not always for parking on them
