The aims of the group are conservation and environmental education through practical work, talks, field meetings and a newsletter issued quarterly.

We aim to protect and enhance the biodiversity at Old Sneed Park Nature Reserve through good management, appropriate planting and removal of undesirable species eg Japanese knotweed.

We aim to maintain the quiet, peaceful atmosphere which is conducive to a wildlife habitat. The Friends group has been going for over 25 years. New members are always welcome. Guided walks can be arranged for interested groups. Working Parties are held regularly see our web site for details.

We completed a project to restore the lake in 2009. Funded by Your Heritage Lottery Fund.
